Kitsakis Giorgos
Computer Scientist

ABOUT

Computer scientist with a good experience in the telecommunications industry and strong background with a diploma degree in Harokopio University of Athens. Good knowledge in FullStack Developement, Android Java and Python. Keen to learn more and more in the field of computer science as an easy going person, open minded, creative and team player.

EXPERIENCE

Threenitas, Athens— Software Developer Intern July 2022 - September 2022

Developed sites from scratch using JavaScript, HTML5, CSS and also executed backend work using NodeJS.

DeltaFoods SA, Athens— Junior Software Developer March 2024 – present

I am actively engaged in the development and maintenance of software solutions for the company, with a primary focus on enhancing accessibility and usability for all employees. Additionally, I am tasked with generating reports, providing database support, and ensuring the seamless operation of systems to meet customer needs effectively. My ongoing professional development encompasses continuous learning in front-end technologies such as PHP, JavaScript, jQuery, and Bootstrap, as well as proficiency in back-end development utilizing C#, .NET, and MySQL for database management. Furthermore, I am actively involved in the integration and maintenance of SAP systems to uphold their smooth and efficient functionality within the organization.

EDUCATION

B.Sc. in Informatics & Telematics 2019-2023

Harokopio University, Athens
Diploma Thesis: Algorithms for physical activity measurement from smartphone sensors.
